

DESKRITE 100 SIT-STAND WORKSTATION

The high quality, affordable introduction to active working.

POSTURE
DEPOT

Instantly convert any surface into a sit-stand desk with the stylish DeskRite 100. Simply pull the levers to move the dual-level surface to your desired height and enjoy a sturdy, ergonomic work surface for your monitors, devices and documents. No other sit-stand workstation packs the features and ergonomic benefits of the DeskRite 100!

The DeskRite 100 effortlessly extends vertically within its own footprint resulting in a more streamlined, compact sit-stand solution. Other popular brands extend forward and impede work space. And the Deskrite 100 is the only sit-stand desktop solution that accommodates up to three 24" monitors (monitor arms sold separately).

If you're looking for a simple, low-cost way to reduce injury risk, burn more calories, and boost concentration and productivity levels while you work – you need a DeskRite 100!

Features

- "Smart-Lift" vertical lifting system
- Patent-pending Torque Controllers to aid lifting
- Accommodates up to three 24" monitors
