

KEYBOARD ARM

MiniCobra Keyboard Arm

MiniCobra Keyboard Arm

- Track Length: 21"
- Height Adjustment: Lift and Release
- Tilt Adjustment: Soft Touch Wheel
- Tilt: +10°/-20°
- Height Range: 8"
- Rear Swivel: 360°
- Material: Steel
- Finish: Black Powder Coat

The MiniCobra keyboard arm is ideal for above desk adjustment and medical cart applications. Height adjusts without knobs or levers; simply move the keyboard tray to the desired position and release. Optional positive tilt lock-out feature can be factory supplied or field installed. Counterbalance design offsets keyboard weight during height and tilt adjustment. Slim profile provides maximum knee clearance, whether in use or retracted for storage. Rear swivel rotates 360° for optimal keyboard tray positioning and easy storage. Closed-channel design provides maximum keyboard stability.
